

ACCUREX COMPONENTS INDIA PVT. LTD.

- Hydraulic Fittings
- Pipe Fittings
- Precision Turned Components
- Brass Fittings
- Precision Milling Components
- Instrumentation Parts
- Valve Components
- Aluminium Machined Components
- Mechanical Seals Components
- Pump Components
- Dowel Pins
- Industrial Fasteners
- Forged Components

Accurex Components India Private Limited is founded by a group of visionaries with over 15 years of vast experience in the engineering industry. We manufacture all types of **Precision CNC Turned Components & Precision VMC Milling Components** to meet the demands of various industries.

The quality products manufactured by us are widely recognized for great strength, wear and tear resistance, precise dimensions, flexibility and durable finish. Which helping to reduce environmental contamination and extend equipment life. All our products offer advanced rotating and fitting solutions.

Accurex is a trusted name in the arena of **Precision CNC Turned Components & Precision VMC Milling Components** for hydraulic, pneumatic, instrumentation, fastener & fittings, industrial & domestic pumps, valves, machinery, engineering products, automobiles, hardware, lawn & garden, electric & electronics, telecom, gas & oil, appliances, plastic & rubber molding, defense, textile, energy, medical, construction, agriculture and many more industries.

With the efforts of our skilled management team, we are at the forefront of providing standard and customized products to every industrial unit. Different departments like designing, research and development, manufacturing, assembling, quality testing, packaging and dispatching are manned by well-educated staff so that we can meet the needs of our customers on time.

Our Infrastructure

We manufacture precision turned and milling components through vast engineering experience and latest machinery & technology. Our machine shop is well-equipped with advanced equipment to handle and meet the most demanding manufacturing needs of our customers.

Our Vision

To create an organization with excellence, quality and production as per international standards to meet the needs of the global industry.

Our Mission

- To manufacture components with zero defects and quality
- To manufacture customized components as per drawings/samples
- To provide high quality products with cost effective and short lead time
- To establish successful relationship with customers and business partners

WHY US ?

- Skilled Engineers
- Customized Products
- Simple & Effective Pricing Structure
- A Quality Products
- An Effective Service
- ISO 9001 Certified Quality Systems
- On Time Delivery
- Well Equipped Infrastructure
- Free & Quick Quote

Quality & Service is a Priority

Quality is not just about having procedures in place. It is also about having the right tools to do the work, and that our staff is quality conscious. This comes about by having a pride in what they produce. Service starts from when we receive an enquiry through to the delivery of that item. With this in mind we hope to form a partnership with our customers to give them the service they are looking for.

Products Application

- Auto Industry
- Industrial Assembly
- Electrical
- Electronic
- Plastics & Rubber Molding
- Gas & Oil
- Appliances
- Telecom
- Hydraulics & Pneumatics
- Valve Assembly
- Power Transmission
- Water Pump
- Textiles
- Energy
- Medical
- Construction
- Machineries

Machineries & Equipment

- CNC Machine
- VMC Machine
- Turn mill Machine
- Lathe Machine
- Milling Machine
- Drilling Machine
- Sleeve Hydraulic Press
- Band Saw
- Cleaning Machine
- Air Compressor

Products Range

- Hydraulic Fittings
- Pipe Fittings
- Precision Turn Components
- Swiss Turn Components
- Pump Parts
- Brass Fittings
- Mechanical Seals Components
- Automat Turned Components
- Forged Components
- Motor Parts
- Instrumentation Parts
- Hydraulic Hose Fittings
- Valve Parts
- Shaft & Sleeve
- Flanges
- Dowel Pins
- Industrial Fasteners
- Precision Milling Components

Threads

- M – ISO Thread(Metric)
- NPT Thread
- BA Thread
- BSW Thread
- UNC / UNF Thread
- BSPT Thread
- Buttress Thread
- Any threads as per custom design

Special Features

Any kind of special turned parts can be developed as per customer's drawings or specifications.

Material

Stainless Steel, Brass, Bronze, Copper, Aluminum, Carbon Steel & Alloys

Finish and Coating

Natural, Nickel Plated, Chrome Plated, Tin Plated, Silver Plated, Gold Plated or any coating as per customer specification

➤ Hydraulic Fittings

➤ Pipe Fittings

➤ Precision Turn Components
